

AX SOLAR  
ROBOT

# WET SLIDER

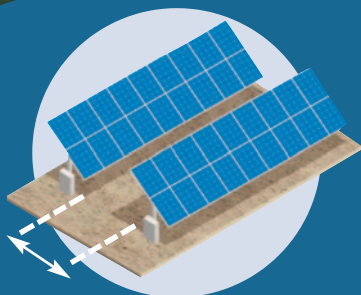

The dedicated solution for tracker based PV parks  
water cleaning operations

[www.ax-solar-robot.com](http://www.ax-solar-robot.com)

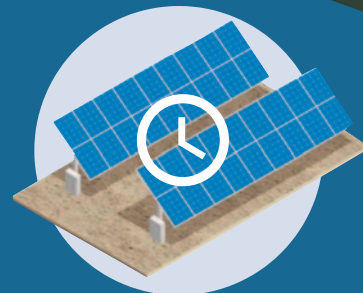

# Take full control over the water chain

From demineralization to HP hoses and couplings, passing by mobile storage and high pressure generation, our integrated field logistics solution facilitates the cleaning operations

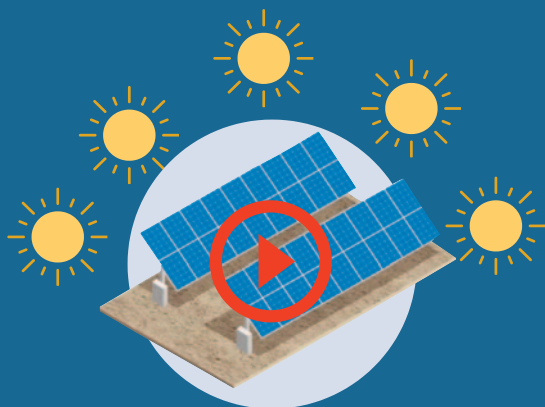

Perfect for **reduced PV row spacing** automatic cleaning operations

**Around the clock**  
Exceptional reliability and operating range thanks to its **hydraulic motor** : no more limit in the field

**Obstacle-free** operation  
(drivelines, electrical bridges, etc...)

**Cleaning while tracking**  
No more disruption of tracking as the WetSlider **operates at any tilt angle**

Duplicate effortlessly the **cleaning efficiency** : 1 200 sqm//h/robot  
> **up to 15 000 sqm/day with 2 robots** working in parallel
